Dear Friends,

As governor of Michigan, I would like to take this opportunity to congratulate the Global Organization for Divinity on their 10 years of dedicated service.

The work your organization has done has helped to spread peace and harmony without any social, cultural or geographical boundaries. Without question, numerous families, individuals and organizations have benefitted from your presence in the community. I have great hope in our future because of organizations like this whose hard work in the community inspires others to do great things.

On behalf of the people of Michigan, congratulations on a truly exceptional achievement. Please accept my best wishes for continued success and prosperity in the future.

Sincerely,
