

Radhe Radhe Everyone,

I am going to tell you my experience during this 2017 Namadwaar Utsav.

I like so many things in the Utsav.

1. The programs I liked the most was Radha Kalyanam and Poornimaji's Lectures.

Because this year we the children got to do Radha Kalyanam!! It was very nice experience. We got to decorate the Mandapam and do Radha Kalyanam ourselves.

2. Poornimaji's Lecture -This year all the listeners, including us kids, were asked to write notes of the lectures. That motivated me to listen more carefully and lectures were very interesting to me.

3. Other fun parts were Vana Bhojanam and Govardhana Leela

Vana Bhojanam - we all dressed like Krishna's friends and went with Krishna and had food with Krishna in the forest and played with Krishna too... fun fun fun..!!

Govardhana Leela - We all participated and enacted how the Govardhana leela happened... really happy how Krishna saved all of us...!

My gosh the food everyday was BEST. Everyone really worked hard to get the food and other things. I think the food tasted so YUM because it was first offered to Krishna and we ate it as Prasadam.

I was really happy to see people from all over US and Canada. I got to meet all my friends. More and more people.. I like to see all them coming to Houston for Utsav.

It was pleasure to be part of the Utsav. I am attending 5th year in a row... Looking forward to be part of Dec 2018 Utsav.

Radhe Radhe

Harini
